

UOČAVANJE POČETNOGA GLASA U RIJEČI (REMI)

Za ovu igru potrebno je izrezati sva slova hrvatske abecede. Za igru na početni glas upotrebljavaju se sva slova abecede.

Cilj je igre sakupiti po osam pojmova koji **počinju istim glasom**, primjerice na **V**: **V**ESLO, **V**ITEZ, **V**AGA, **V**OLAN, **V**EŽICA, **V**ISIBABE, **V**ADIČEP I **V**ODOPAD.

Upute za igru: roditelj podijeli igračima kartice sa slovima, tako da svaki igrač dobije po jednu karticu sa slovom, različitim od slova ostalih igrača. Karticu sa "svojim" slovom svaki igrač stavlja pred sebe na stol, tako da je i ostali igrači vide. Ostale se kartice s pojmovima slože u kup na sredinu stola, licem prema dolje, ili ih roditelj drži u ruci. Roditelj uzima karticu po karticu i glasno izgovara pojam koji se nalazi na slici (npr. **ZEBRA**) i pita: "Kome treba **ZEBRA**?" Svi igrači pažljivo slušaju da uoče početni glas u zadanoj riječi, pogledaju svoje kartice sa slovima i onaj koji pred sobom ima karticu sa slovom **Z**, zatraži sličicu.

Ukoliko dijete **ne poznaje slova**, ali **uočava prvi glas u riječima**, daje mu se kartica sa sličicom (npr. **PILE**) i kaže mu se da će sakupljati sve pojmove koji **počinju** istim glasom kao i **PILE**, odnosno kad čuje izgovorene pojmove koji počinju na glas "**P**", kao **PERO**, **PAUK**, **POŽAR** ..., zatražit će ih i pridružiti sličici na kojoj je prikazano **PILE**.

Igra završava kada svaki igrač sakupi po 8 kartica na "svoj" početni glas.

Ukoliko je igra nekome **preteška**, može se igrati na sljedeći način: ako se pažljivije pogledaju pojmovi sa sličica, uočiti će se da od 8 pojmova na isti početni glas, po 2 pojma (jedan dvosložni i drugi trosložni) počinju **istim slogom**. Npr.: **DU**-GA i **DU**-PINI, **DE**-VA i **DE**-KICA, **DA**-BAR i **DA**-ROVI, **DI**-NJA i **DI**-RIGENT. Naime, prije mogućnosti uočavanja početnoga glasa u riječima, dijete može uočiti kojim slogom započinje pojedina riječ. Stoga mu treba ponuditi da **sparuje pojmove na isti početni slog**, umjesto na isti početni glas. Kako bi se dijete potaknulo da osvijesti kako se riječi sastoje od slogova, mogu roditelji u svakodnevnom razgovoru s djetetom tako izgovarati rečenice. Npr.: "Mo-lim te do-daj mi svo-ju i-grač-ku". Ili: "Že-liš li da-nas o-bu-ći pla-vu ili žu-tu ma-ji-cu?" Djetetu će to vjerojatno biti zabavno pa će vam i samo početi odgovarati na taj način. A to je koristan uvod u buduću glasovnu analizu i sintezu, koja prethodi uspješnom ovladavanju vještinom čitanja.

Ukoliko je igra nekom djetetu **prelagana**, može se otežati na sljedeći način: nazive pojmova roditelj može izgovarati bez prvoga glasa. Npr: "Kome treba **_ERO**?", umjesto **PERO**, pa dijete mora zaključiti o kome pojmu bi se radilo. Pri tom može pokazivati sličice kako bi dijete vidjelo pojam, a mogu se i samo izgovarati pojmovi, bez pokazivanja sličica.

NAPOMENE

Uz svaku sličicu upisan je i naziv pojma, ne zato da bi se djecu poučavalo čitanju, već isključivo zato da bi se postigao cilj igre, primjerice: LJILJAN, a ne CVIJET, ĐACI, a ne UČENICI, ŽUNA, a ne PTICA i slično.
